

Our History: A Developing Record

A dated record of the ministry and website's developing foundation, preserved without inventing an origin date.

426-HIS-001 | Version 1.0 | October 25, 2026

1 Corinthians 4:2

What this record preserves

This reading edition records the S.E.E. foundation and the direction of the unified 426 IMAGO DEI website as documented on October 25, 2026. It does not establish the company's legal formation date or the earliest origin of the vision. Those earlier records will be added as they are verified.

From an entrance to an invitation

Seek, Encounter, and Explore began as navigation choices. The founder's supplied reflections describe their growth into a continuing invitation to know God, respond to Him, and study His Word.

The developing creative record

The site brings together Presence, Encounter, The Well, Resources, Patria, provision through Chorēgia, and creative collections. Collection records preserve their Scripture, purpose, contributors, and approved testimony.

The first collection launch is planned for January 1, 2027. Collection previews do not establish that products are available for sale. Dates, editions, and credits will be revised through separately identified records as the work develops.
